

We are going international!

‘Antoniewicz to the point’ is a format that encourages creative exchange and promising networking beyond the confines of the catering industry.

We share knowledge, openness and curiosity. We learn from each other, we look through each other's eyes, we spill the beans. We allow ourselves to be inspired, amazed and touched.

We get to the heart of the matter.

With ‘Antoniewicz to the point - The Essence’, we dive with our speakers into the depths of their profession and approach them as people. They let us see the world through their eyes.
